

BUILT FOR YOU.

Achieve More with a Platform Purpose-Built for Associations

Modern association software that gets you.

iMIS, the world's only Engagement Management System (EMS), is designed to meet your unique core membership needs with the flexibility to extend and grow all with automatic continuous upgrades.

Fuses your member data with your web presence.

Harness the power of Microsoft.

Powered by Microsoft Azure, the world's #1 cloud computing platform, iMIS provides automatic upgrades, world-class data security, and peak performance.

Purpose-built for the way associations work.

Get a complete picture of your members with a single data source.

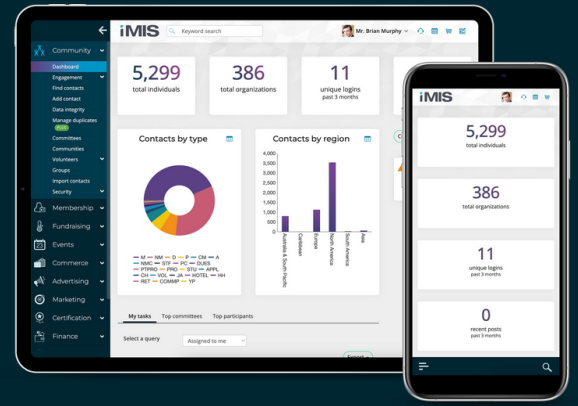

Easily handles your complex billing & pricing structures.

Delight members with personalised web experiences.

“Before using iMIS, we had lots of data silos. Bringing everything together has created a number of immediate efficiencies, including a central repository for data, lower data security risks, and more effective/faster information sharing.”

Builders Merchants Federation

Connects to your favourite association apps.

Enjoy all the features you need to effectively manage your association plus a powerful API with 100s of proven integrations, easy to use dashboards and reports, and an optional Web CMS.

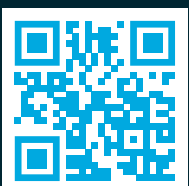

Unmatched ecosystem of support.

With iMIS, you're never alone. Only iMIS offers an unmatched ecosystem of award-winning client support and online education, an independent users' group and a growing network of 80+ consulting partners to help you succeed.

Natively provides the core features you need.
